## 1. Introduction

Commercial Bank of Dubai PSC (“the Bank”) was incorporated in Dubai, United Arab Emirates (U.A.E.) in 1969 and is registered as a Public Joint Shareholding Company (PJSC) in accordance with Federal Law No. 32 of 2021. The Bank is listed on the Dubai Financial Market. The Bank’s principal activity is commercial and retail banking. The registered address of the Bank is CBD Head Office, Al Ittihad Street, P.O. Box 2668, Dubai, United Arab Emirates.

## 2. Purpose and basis of preparation

The Central Bank of the UAE (“CBUAE”) supervises Commercial Bank of Dubai (“the Bank”) and its subsidiaries (together referred as the “Group”) on a consolidated basis, and therefore receives information on the capital adequacy of, and sets capital requirements for, the Group as a whole. The capital requirements are computed at Group level using the Basel III framework of the Basel Committee on Banking Supervision (“Basel Committee”), after applying the amendments advised by the CBUAE, within national discretion. The Basel framework is structured around three pillars as follows:

- Pillar I prescribes the minimum capital requirements;
- Pillar II addresses the associated supervisory review process; and
- Pillar III specifies further public disclosure requirements in respect of their capital and risk profile.

The disclosures have been prepared in line with the disclosure templates introduced by the CBUAE guidelines on disclosure requirements (CBUAE/BSD/N/2020/4980 and CBUAE CBUAE/BSD/N/2021/5508) published in November 2020 and November 21 respectively.

The Pillar III report of the Group for the period ended 31 March 2022 comprises detailed information on the underlying drivers of risk-weighted assets (RWA), capital of the Bank, its wholly owned subsidiaries (together referred to as “the Group”) and the Group’s interest in an associate. The report should be read in conjunction with the Group’s reviewed Financial Statements as at 31 March 2022. The direct subsidiaries and associate of the Group are as follows:

| Legal entity                                   | Group percentage Shareholding | Nature of business                                   | Country of incorporation | Description of Accounting / Regulatory treatment |

### **3. Overview of Pillar III**

Pillar III complements the minimum capital requirements and the supervisory review process. Its aim is to encourage market discipline by developing disclosure requirements which allow market participants to access specified information on the scope of application of Basel III, capital, particular risk exposures and risk assessment processes, and hence the capital adequacy of the institution. Disclosures comprises of quantitative and qualitative information and are provided at the consolidated level.

The CBUAE issued Basel III capital regulations, which came into effect from February 1<sup>st</sup>, 2017 introducing minimum capital requirements at three levels, namely Common Equity Tier 1 (“CET1”), Additional Tier 1 (“AT1”) and Total Capital. Additional capital buffers (Capital Conservation Buffer and Countercyclical Capital Buffer – maximum up to 2.5% for each buffer) introduced are over and above the minimum CET1 requirement of 7%.

Following are the changes in revised standards which have been adopted either prior to or during 2021.

- The Tier Capital Supply Standard
- Tier Capital Instruments Standard
- Pillar II Standard: Internal Capital Adequacy Assessment Procedures (ICAAP)
- Credit Risk, Market Risk and Operational Risk
- Equity Investments in Funds, Securitization, Counterparty Credit Risk and Leverage Ratio

Credit Value Adjustment for Pillar I and III will be effective from 30 June 2022.

The purpose of Pillar III – Market Discipline is to complement the minimum Capital requirements (Pillar I) and the supervisory review process (Pillar II). The CBUAE supports the market discipline by developing a set of disclosures requirements which will allow market participants to access key information on the scope of application, capital, risk exposure, risk assessment process and hence the capital adequacy of the Group. The revised Pillar III disclosures, based on the common framework, are an effective means of informing the market about the risks faced by the Bank, and provide a consistent and understandable disclosure framework that enhances transparency and improve comparability and consistency.

In compliance with the CBUAE Basel III standards and guidelines, these disclosures includes qualitative and quantitative information of the Group’s risk management objectives and policies, risk assessment process, capital management and capital adequacy. The Group’s Pillar III disclosures are governed by the disclosure policy framework in line with CBUAE Basel III standards.

### **3.1 Policy and verification**

The Bank has operated within a framework of internal controls and procedures for accessing the appropriateness of Pillar III market disclosure for period ended 31 March 2022.

This Pillar III disclosure have been subject to review from internal auditors and appropriate senior management within the Group and attested by the Board Executive Committee.

We confirm that the Bank's Pillar III disclosures, to the best of our knowledge, comply with the revised CBUAE Pillar III market disclosures requirements and have been prepared in compliance with the Bank's internal control framework.

### **3.2 Implementation of Basel III standards and guidelines**

The Group has adopted the standardized approach for Credit Risk, Counterparty Credit Risk and Market Risk, mandate-based approach (MBA) for equity investments in funds held in the banking book and the basic indicator approach for Operational Risk (Pillar I) for regulatory reporting purposes. CVA capital charge is yet to be adopted, which becomes effective from 30 June 2022.

The Group also assigns capital on other than Pillar I risk categories, for 'Interest rate risk on banking book' and for 'Business risk', within the Pillar II framework.

## **4. Highlights**

In line with Article 2.2. of Capital Adequacy Regulation, CBUAE requires banks to apply the following minimum requirement:

1. CET1 must be at least 7% of risk weighted assets (RWA);
2. Tier 1 Capital must be at least 8.5% of RWA;

Total Capital, calculated as the sum of Tier 1 Capital and Tier 2 Capital, must be at least 10.5% of RWA.

3. In addition to the minimum CET1 capital of 7% of RWA, banks must maintain a capital conservation buffer (CCB) and Countercyclical Capital Buffer (CCyB), maximum of 2.5% of RWAs on the form of CET1 capital.
4. All banks must maintain a leverage ratio of at least 3.0%.

The Group has complied with all the externally imposed capital requirements and is well capitalized with low leverage and high levels of loss-absorbing capacity. As at 31 March 2022:

- The Group's Common Equity Tier 1 (CET1) ratio of 12.00% (31 December 2021: 12.13%), Tier 1 capital Ratio of 14.46% (31 December 2021: 14.66%), Capital Adequacy Ratio of 15.61% (31 December 2021: 15.82%), are all well ahead of the regulatory requirements.
- The Group's leverage ratio of 9.89% (31 December 2021: 10.18%) is well ahead of the current regulatory requirement.
- The Group continues to manage its balance sheet proactively, with focus on sound RWA management.

Total capital requirement is defined as the sum of Pillar I and Pillar II capital requirements set by the CBUAE for Capital Adequacy. The minimum requirements represents the total capital requirement to be met by CET1.

During Q1 2020, the CBUAE issued a regulation for a 'Prudential Filter' that permits Banks to add back increase in IFRS 9 stage 1 and stage 2 provisions to the regulatory capital over a transition period of 5 years on proportionate basis. The increase in IFRS 9 provision requirements is determined by calculating the difference between the IFRS 9 provision as at 31 December, 2019 and the IFRS 9 provision as of the respective reporting date. The proportion of the increase in IFRS 9 provisions that is permitted to be added-back to regulatory capital from 1 January 2020 onwards will be phased out over a 5 year transition period as follows:

| Years                   | 2020 | 2021 | 2022 | 2023 | 2024 |
|-------------------------|------|------|------|------|------|
| Proportion of Provision | 100% | 100% | 75%  | 50%  | 25%  |

## 7 Leverage Ratio

### 7.1 Summary comparison of accounting assets vs leverage ratio exposure (LR1)

The following table reconciles the total assets in the published financial statements to the leverage ratio exposure measure.

|           |   | 31 Mar 2022<br>(AED 000s) | 31 Dec 2021<br>(AED 000s) |
|-----------|---|---------------------------|---------------------------|
