Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Information

The Shareholders
Commercial Bank of Dubai PSC

Introduction

We have reviewed the accompanying condensed consolidated interim financial information of Commercial Bank of Dubai PSC. (the "Bank") and its subsidiaries (collectively referred to as the "Group"), which comprises:

- the condensed consolidated interim statement of financial position as at 31 March 2019;
- the condensed consolidated interim statement of profit or loss for the three-month period ended 31 March 2019;
- the condensed consolidated interim statement of profit or loss and other comprehensive income for the three-month period ended 31 March 2019;
- the condensed consolidated interim statement of changes in equity for the three-month period ended 31 March 2019;
- the condensed consolidated interim statement of cash flows for the three-month period ended 31 March 2019; and
- notes to the condensed consolidated interim financial information.

Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 31 March 2019 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

Commercial Bank of Dubai PSC

Notes to the condensed consolidated interim financial statements

For the three-month period ended 31 March 2019

1 LEGAL STATUS AND ACTIVITIES

Commercial Bank of Dubai PSC ("the Bank") was incorporated in Dubai, United Arab Emirates (U.A.E.) in 1969 and is registered as a Public Shareholding Company (PSC) in accordance with Federal Law No. 2 of 2015. The Bank is listed on the Dubai Financial Market. The Bank's principal activity is commercial banking. The registered address of the Bank is Al Ittihad Street, P.O. Box 2668, Dubai, United Arab Emirates.

The condensed consolidated interim financial statements of the Group for the three month period ended 31 March 2019 comprise the results of the Bank, its wholly owned subsidiaries (together referred to as "the Group") and the Group's interest in an associate.

Details about subsidiaries and an associate:

- a) CBD Financial Services LLC, is registered as a limited liability company in accordance with Federal Law No. 2 of 2015 in Dubai, United Arab Emirates. The Bank holds a 100% interest. Its principal activity is providing brokerage facilities for local shares and bonds.
- b) CBD Employment Services One Person Company LLC, is registered as a limited liability company in accordance with Federal Law No. 2 of 2015 in Dubai, United Arab Emirates. The Bank holds 100% interest. Its principal activity is supply of manpower services.
- c) Attijari Properties LLC, is registered as a limited liability company in accordance with Federal Law No. 2 of 2015 in Dubai, United Arab Emirates. The Bank holds a 100% interest. Its principal activity is self-owned property management services as well as buying and selling of real estate.
- d) CBD (Cayman) Limited is a special purpose entity (SPE) registered in British Virgin Islands. The SPE has been established for any future issuance of debt securities.
- e) CBD (Cayman II) Limited, which is a special purpose entity (SPE) registered in British Virgin Islands. The SPE has been established to transact and negotiate derivative agreements.
- f) National General Insurance Co. (PSC) is an associate of the Bank and is listed on the Dubai Financial Market. It underwrites all classes of life and general insurance business as well as certain reinsurance business. The Bank holds 17.8% interest in the associate. The management believes that it has significant influence on the associate by virtue of having representation on the Board of Directors of the associate.

2 BASIS OF PREPARATION

2.1 Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. These condensed consolidated interim financial statements do not include all the information required for full annual audited consolidated financial statements and should be read in conjunction with the audited consolidated financial statements of the Group as at and for the year ended 31 December 2018.

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's audited consolidated financial statements for the year ended 31 December 2018, except for the adoption of IFRS 16 *Leases* for the first time.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

2.2 Functional and presentation currency

The condensed consolidated interim financial statements are presented in United Arab Emirates Dirhams ("AED"), which is the Bank's functional and presentation currency, rounded to the nearest thousand unless otherwise stated.

2.3 Basis of consolidation

The condensed consolidated interim financial statements comprise the financial statements of the Bank, its wholly owned subsidiaries (together referred to as "the Group"), which it controls and the Group's interest in an associate, as at 31 March 2019. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Commercial Bank of Dubai PSC

Notes to the condensed consolidated interim financial statements

For the three-month period ended 31 March 2019

3 SIGNIFICANT ACCOUNTING POLICIES

3.1 Summary of Significant Changes in Accounting Policies

The Group has adopted IFRS 16 retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under specific transitional provisions in the standard. The reclassifications and adjustments arising from the new leasing rules are therefore recognized in the opening balance sheet on 1 January 2019.

3.1.1 Adjustments recognised on adoption of IFRS 16

On adoption of IFRS 16, the group recognised lease liabilities in relation to leases which had previously been classified as 'Operating leases' under the principles of IAS 17 *Leases*. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The Financial Impact of adopting the standard is not material.

There were no leases previously classified as finance lease by the entity.

3.1.2 Group's leasing activities and how they are accounted for

Until the 2018 financial year, leases of office premises were classified as operating lease. Payments made under the operating leases (net of any incentives received from the lessor) were charged to profit and loss account on a straight line basis over the period of lease.

From 1 January 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Amounts expected to be payable by the lessee under residual value guarantees;
- The exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

At each reporting date, the Group analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the Group verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

Right-of-use assets are measured at cost comprising the following:

- Any lease payments made at or before the commencement date less any lease incentives received
- Any initial direct costs, and
- Restoration costs.

Critical judgments in determining the lease term:

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee.

Commercial Bank of Dubai PSC

Notes to the condensed consolidated interim financial statements

For the three-month period ended 31 March 2019

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.1 Summary of Significant Changes in Accounting Policies (continued)

3.1.2 Group's leasing activities and how they are accounted for (continued)

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Residual value guarantees:

The group initially estimates and recognises amounts expected to be payable under residual value guarantees as part of the lease liability. The amounts are reviewed, and adjusted if appropriate, at the end of each reporting period.

3.2 Financial Assets

3.2.1 Classification

The Group classifies financial assets on initial recognition in the following categories:

- (i) Amortised cost;
- (ii) Fair value through other comprehensive income (FVOCI); and
- (iii) Fair value through profit or loss (FVPL).

o *Business model assessment*

The Group makes an assessment of the objective of a business model in which a financial asset is held at portfolio level, because this reflects the way the business is managed and information is provided to the management. The assessment is not determined by a single factor or activity. Instead, the entity considers all relevant information available at the date of the assessment. The information considered includes:

- The stated policies and objectives for the business and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets.
- How the performance of the portfolio and the financial asset held within the portfolio is evaluated and reported to the management.
- The risks that affect the performance of the portfolio and, in particular, the way in which those risks are managed.
- How the managers of the business are compensated.
- The frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

o *Assessment whether contractual cash flows is solely payments of principal and interest*

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument.

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

Commercial Bank of Dubai PSC

Notes to the condensed consolidated interim financial statements

For the three-month period ended 31 March 2019

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Financial Assets (continued)

3.2.1 Classification (continued)

o *Assessment whether contractual cash flows is solely payments of principal and interest (continued)*

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash from specified assets;
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

3.2.2 Impairment of financial assets

IFRS 9 requires the Group to record an allowance for ECLs that are not measured at FVPL on the following financial instruments:

- loans and advances, Islamic financing and other financial assets;
- loan commitments; and
- financial guarantee contracts.

The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

IFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

Stage 1: When loans are first recognised, the Group recognises an allowance based on 12 months ECLs.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Group records an allowance for the life time expected credit losses (LTECLs).

Stage 3: Loans considered are credit-impaired. The group records an allowance for the LTECLs.

The key inputs into the measurement of ECL are the term structures of the following variables:

- probability of default (PD);
- exposure at default (EAD); and
- loss given default (LGD).

These parameters are generally derived from internally developed statistical models and other historical data. They are adjusted to reflect forward-looking information.

Details of these statistical parameters/inputs are as follows:

- PD – The probability of default is an estimate of the likelihood of default over a given time horizon.
- EAD – The exposure at default is an estimate of the expected exposure in the event of a default and the potential changes to the current amount allowed under the contract including amortisation.
- LGD – The loss given default is an estimate of the loss arising in case a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realization of any collateral. It is usually expressed as a percentage of the EAD.

(i) Assessment of significant increase in credit risk

Assessment of significant increase in credit risk is performed on at least quarterly basis for each individual exposure. Quantitative thresholds are established for the significant increase in the credit based on the movement in credit rating. In addition to quantitative criteria the Group has a proactive Early Warning Indicator (EWI) framework, based on which the Credit Risk team performs a portfolio quality review on a monthly basis. The objective of the same is to identify potentially higher risk customers within the performing customers.

For retail lending the Group considers credit scores and events such as unemployment, bankruptcy or death. As a back-stop when an asset becomes 30 days past due, the Group considers that a significant increase in credit risk has occurred and the asset is in Stage 2 of the impairment model, i.e. the loss allowance is measured as the lifetime ECL.

Commercial Bank of Dubai PSC

Notes to the condensed consolidated interim financial statements

For the three-month period ended 31 March 2019

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Financial Assets (continued)

3.2.2 Impairment of financial assets (continued)

(ii) Improvement in credit risk profile

The Group has defined below criteria to assess any improvement in the credit risk profile which will result into upgrading of customers moving from Stage 3 to Stage 2 and from Stage 2 to Stage 1.

- Significant decrease in credit risk will be upgraded stage-wise (one stage at a time) from stage 3 to stage 2 and from stage 2 to stage 1 after meeting the curing period of at least 12 months.
- Restructured cases will be upgraded if repayments of 3 installments have been made or 12 months curing period is met, if the repayments frequency are longer than monthly or quarterly installments.

(iii) Default definition

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full without recourse by the Group to actions such as realising security (if any is held); or
- the borrower is past due more than 90 days on any material credit obligation to the Group.

In assessing whether a borrower is in default, the Group considers indicators that are:

- qualitative - e.g. breaches of covenant;
- quantitative - e.g. overdue status and non-payment on another obligation of the same issuer to the Group; and
- based on data developed internally and obtained from external sources.

The Group has performed a historical default rate analysis to identify homogeneous segments and further estimated ECL parameters (i.e. PD, LGD and EAD) at similar granularities. To perform a historical default rate analysis, the Group has adopted two separate definitions of default for the non-retail and the retail portfolio.

o Non-retail portfolio

The non-retail portfolio comprises of loans which are managed individually by the Relationship Managers (RMs) with oversight from the Credit Risk team of the Group. These loans are appraised at least annually based on the financial information, other qualitative information and account conduct of the customer.

A non-retail customer is identified as at default if the customer is materially delinquent for more than 90 days on any of its credit obligation.

o Retail portfolio

The retail portfolio comprises of loans that are managed at a product level, and based on approved product programs. A retail account is identified as default if the customer is delinquent for more than 90 days.

The default rate analysis for the retail portfolio is performed at the account level.

(iv) Incorporation of forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. The Group relies on a broad range of forward looking information as economic inputs such as:

- GDP growth rates
- UAE Central Bank base rate

4 USE OF ESTIMATES AND JUDGMENTS

The preparation of condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. In preparing these condensed consolidated interim financial statements, significant judgment is exercised by management in applying the Group's accounting policies. The key sources of estimation and uncertainty are consistent with the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2018.

Commercial Bank of Dubai PSC

Notes to the condensed consolidated interim financial statements (continued)

For the three-month period ended 31 March 2019

5 APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS "IFRS"

Relevant new and revised IFRS applied with no material effect on the condensed consolidated interim financial statements

The following new and revised IFRS have been adopted in these condensed consolidated interim financial statements. The application of these new and revised IFRS has not had any material impact on the amounts reported for the current and prior periods.

	Effective for annual periods beginning on or after
(a) <i>Annual improvements 2015-2017 cycle</i>	1 January 2019
(b) Prepayment features with Negative Compensation - Amendments to IFRS 9	1 January 2019
(c) Long-term interests in Associates and Joint Ventures - Amendments to IAS 28	1 January 2019
(d) Plan Amendment, Curtailments or Settlement - Amendments to IAS 19	1 January 2019

6 RISK GOVERNANCE AND FINANCIAL RISK MANAGEMENT

The Group's Risk Governance and Financial Risk Management objectives, policies and procedures are consistent with those disclosed in the Group's audited consolidated financial statements as at and for the year ended 31 December 2018.

7 CASH AND BALANCES WITH CENTRAL BANK

	31 March 2019 AED'000 (Unaudited)	31 December 2018 AED'000 (Audited)
Cash on hand	372,198	449,843
Balances with Central Bank U.A.E		
- Clearing account balances	78,047	732,048
- Statutory reserves	3,280,164	3,200,431
- Negotiable certificates of deposit	4,000,000	4,300,000
	<u>7,730,409</u>	<u>8,682,322</u>

Statutory reserves are not available for use in the Group's day to day operations and cannot be withdrawn without the approval of the Central Bank. The level of reserves required changes periodically in accordance with the directives of the Central Bank.

Cash and balances with Central Bank is classified under stage 1 as per IFRS 9. However, there are no expected credit losses and hence no provision has been recognised.

8 DUE FROM BANKS, NET

	31 March 2019 AED'000 (Unaudited)	31 December 2018 AED'000 (Audited)
Current and demand deposits	634,152	550,754
Overnight, call and short notice	1,706,967	114,071
Loans to banks	307,480	309,590
Gross due from banks	<u>2,648,599</u>	<u>974,415</u>
Allowances for impairment losses	(7,782)	(3,135)

12.1 Syndicated loan

In June 2016, the Group entered into a club deal of USD 450 million (AED 1,653 million) for a term of 3 years with an option to roll over on a quarterly or semi-annual basis. This replaced the syndicated loan arrangement of USD 450 million maturing in December 2016, which was prepaid in June 2016 and carried interest at the rate of 3 month LIBOR plus 125 basis points payable on a quarterly basis.

This arrangement was prepaid in December 2018 and replaced with a bilateral loan of USD 350 million with 3 years maturity arranged from various banks.

Commercial Bank of Dubai PSC

Notes to the condensed consolidated interim financial statements (continued)

For the three-month period ended 31 March 2019

12 NOTES AND MEDIUM TERM BORROWINGS (CONTINUED)

12.2 Repurchase agreements

In July 2012, the Group entered into Repo transactions to obtain financing against the sale of certain debt securities, amounting to USD 150.1 million (AED 551.4 million) with arrangements to repurchase them at a fixed future date in July 2017. In June 2016, the arrangement of repurchase has been extended for additional five years until July 2022.

In June 2016, the Group entered into additional Repo transactions to obtain financing against the sale of certain debt securities, amounting to USD 161.1 million (AED 591.8 million) with arrangements to repurchase them at a fixed future date in June 2021.

As at 31 March 2019, the fair value of the debt securities, which have been pledged under these repurchase agreements with banks, amounts to AED 1,393 million (USD 379.2 million) (2018: AED 1,383 million (USD 376.5 million) (note 10).

12.3 Euro medium term notes

In 2013, CBD activated its Euro Medium Term Note (EMTN) program. These notes can be issued by way of private or public placements and in each case on a syndicated or non-syndicated basis. These notes can be priced at fixed rate, floating rate or can be index linked. The maximum issuance under the program was USD 2 billion (AED 7.3 billion). At the Annual General Meeting (AGM) held on 28 February 2016 shareholders approved the increase of the program limit up to a total of USD 3 billion (AED 11 billion).

In May 2013, CBD issued USD 500 million (AED 1,836.5 million) of conventional bonds. These notes were priced at 3.375 per cent fixed rate. These had matured on 21 May 2018.

In November 2015, CBD issued USD 400 million (AED 1,469.2 million) of conventional bonds. These notes were priced at 4 per cent fixed rate and will mature on 17 November 2020.

13 EQUITY

Share capital

The fully paid up and authorised ordinary share capital as at 31 March 2019 comprised 2,802,733,968 ordinary shares of AED 1 each (31 December 2018: 2,802,733,968 shares of AED 1 each). There was no movement in authorised ordinary share capital during the period.

14 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share have been computed using the net profit AED 340,054 thousand (31 March 2018: AED 279,744 thousand) divided by the weighted average number of ordinary shares outstanding 2,802,733,968 (31 March 2018: 2,802,733,968).

Diluted earnings per share as of 31 March 2019 and 31 March 2018 are equivalent to basic earnings per share as no new shares have been issued that would impact earnings per share when executed.

17 SEGMENTAL REPORTING

The primary format, business segments, is based on the Group's management and internal reporting structure that are regularly reviewed by the Executive Committee in order to allocate resources to the segment and to assess its performance.

Business segments pay to and receive interest from the Treasury to reflect the allocation of funding costs.

Business segments

Corporate banking	Includes loan and other credit facilities, deposits, trade finance products and e-commerce solutions to large corporate clients (including Government related entities).
Commercial banking	Includes loans, working capital financing, trade finance and deposits products to commercial (mid-sized) clients.
Personal banking	Includes current accounts, easy access saving accounts, fixed rate deposit accounts, personal loans, overdraft facilities, vehicle finance, mortgage products, loans and other credit facilities to small business and retail clients.
Treasury and investments	Undertakes balance sheet management deals and manages the Group's proprietary investment portfolio. It also deals in derivatives for trading and risk management purposes.

Interest is charged or credited to business segments and branches to match funding transfer pricing rates which approximate the cost of funds.

Geographical

The Group operates in one geographic area, the United Arab Emirates.

Total financial liabilities	82,540	-	64,714,310	64,796,850

18.2 Fair value measurement – Fair value hierarchy:

The table below shows categorization of fair value of financial assets and liabilities into different levels of the fair value hierarchy:

Different level of fair value hierarchy have been defined as follows:

Level 1: Quoted market price (unadjusted) in principal market for identified assets / liabilities.

Level 2: Valuation technique based on observable inputs, either directly (i.e.. as prices) or indirectly (i.e.. derived from prices).

Level 3: Valuation technique using significant unobservable inputs.

Except for financial assets and liabilities specified in the below table, the fair value of financial assets and liabilities is not materially different from their carrying value.

20 CAPITAL ADEQUACY

The Central Bank of UAE ('CBUAE') supervises the Group on a consolidated basis, and therefore receives information on the capital adequacy of, and sets capital requirements for, the Group as a whole. Effective from 2017, the capital is computed at a Group level using the Basel III framework of the Basel Committee on Banking Supervision ('Basel Committee'), after applying the amendments advised by the CBUAE, within national discretion. The Basel III framework, like Basel II, is structured around three 'pillars': minimum capital requirements, supervisory review process and market discipline.
